## Project Description

According to the IADB, this Technical Cooperation (TC) aims to support the institutional transformation of the Office of the Comptroller General of the Republic of Panama (CGR). In this regard, it will contribute to strengthening CGR's management through the use of Information and Communication Technologies (ICT) to enhance efficiency and transparency in the performance of its functions. Specifically, it seeks to: (i) strengthen CGR's digital management capabilities to optimize its institutional performance; and (ii) support the creation and financing of the necessary conditions and key inputs for the implementation of the Comptroller's digital transformation agenda.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
