According to the IADB Evaluation Report: Action Plan for Group C and D Countries, in 1997, the Board of Executive Directors approved funding for a special program to improve the capacity of C and D countries to make effective use of Bank financing. The ultimate purpose of this initiative was to help the Bank and these countries to achieve the financing goals established in the Bank's Seventh Replenishment Exercise. The purpose of this evaluation (RE-242) by the Office of Evaluation and Supervision (OVE) is to examine the effectiveness of the execution mechanisms employed to achieve planned objectives. It should be noted that, due to the short time that has elapsed since the Plan was initiated, it has not been possible to assess the impact of its activities on the capacity of the 19 C and D countries to absorb Bank financing.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
