## Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen IDAAN's institutional capacity to structure financial solutions that increase access to drinking water services in Panama. The specific objectives of the TC are: (i) to support the design and implementation of an IDB guarantee aimed at facilitating the financing of strategic projects in this sector; and (ii) to strengthen the financial and legal aspects required for structuring the guarantee, including the analysis of fiduciary, contractual, and risk allocation schemes that will improve its effectiveness and operational viability.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
