Project Description

According to the IADB, this technical cooperation seeks to strengthen the capacities of the National Secretariat for the Development of Afro-Panamanians (SENADAP) and the Ministry of Women (MIDEM) so that both institutions can play a more influential role in fulfilling their core mandates: closing gaps affecting the Afro-Panamanian population and leading public policy on sexual and gender-based violence (SGBV). The specific objectives are to: i) Develop regulatory and operational tools, as well as interinstitutional and community coordination mechanisms, to better identify, address, and reduce the inequalities faced by Afro-Panamanians; and ii) Generate critical institutional tools and capacities to strengthen the continuum of services for addressing sexual and gender-based violence (SGBV) in Panama.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
