Project Description

According to the IADB, the Customs Logistics Integration Program (PILA) (4517/OC-PN) aims to improve Panama's logistics sector through the modernization of infrastructure, equipment, and technological systems for trade control and facilitation. The program includes investments in border infrastructure, the development of technological systems for management and traceability, and institutional strengthening initiatives. Total financing amounts to US\$75 million from IDB Ordinary Capital resources, with the Republic of Panama as the borrower and the ANA as the executing agency. The program is currently under implementation. Within this context, the present TC is conceived as a support instrument for loan execution, providing technical assistance for contract management as well as for the integration and operation of technological solutions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
