Project Description

According to the bank, the objective of the program is to increase the resilience of the riverside population of the southern area of the city of Asunción (Bañado Sur) through: (i) building social housing and quality urban infrastructure in Tacumbú neighborhood under sustainable urbanism standards; (ii) the environmental recovery of lagoons, streams and wetlands and the protection of natural buffer zones; and (iii) the generation of conditions of economic and institutional sustainability and improvement of the adaptive capacity of families.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
