| Bank Risk Rating | C |
| Voting Date | 2020-12-11 |
| Borrower | Government of Paraguay |
| Sectors | Agriculture and Forestry |
| Investment Type(s) | Loan |
| Investment Amount (USD) | \$ 1.10 million |
| Project Cost (USD) | \$ 1.10 million |

Project Description

The purpose of the proposed project is to contribute to the increase in income of small producers of soybeans and other products that are associated with Cooperativa Colonias Unidas. The project will test a model that begins as a small-scale pilot, testing in two cycles of 130 farmers and who have crops with an average of 20 hectares. In a second phase, Colonias Unidas would seek to scale the model to its 3,700 associated farmers, as well as replicate it in other associated cooperatives in the country, through the union of which it is an active part, such as the Federation of Production Cooperatives (Fecoprod).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
