SEP - Cooperativa Naranjito: Precision Agriculture for small and medium scale farmers in Paraguay

Project Description

The project proposes to support small and medium-scale producers who are members of the Naranjito Rural Production Cooperative and other Rural Production Cooperatives in Paraguay to access, adopt and benefit from precision agriculture technologies with the goal of improving crop yields, optimizing the use of inputs and production costs, and ultimately improving the income and livelihoods of this group of producers.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
