Project Description

The general objective of this Technical Cooperation is to provide technical support to the National Government of Paraguay for the design and implementation of priority actions to upgrade their National Early Warning System (EWS).

This project will have three components to: (i) provide technical support in designing National EWS; (ii) provide technical support in implementing community sensitization for hazardous events prevention; and (iii) provide technical support in archiving better communication and coordination among national/local entities.

Investment Description

- Inter-American Development Bank (IADB)

The IDB will finance $200,000 and be the executing agency for this US$252,000 non-reimbursable technical cooperation. There is US$52,000 in country counterpart financing.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
