---

## **Project Description**

Provide technical support to the Government of Paraguay (GoP) to conduct the analysis and studies needed to finalize the climate finance proposal "Strengthening Urban Resilience in Riverside Asuncion" and access resources from the Green Climate Fund (GCF) for its implementation. The Program consists of an integrated flood risk management aimed at strengthening resilience of vulnerable communities and ecosystems by promoting low-carbon and climate-resilient infrastructure.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
