Project Description

The purpose of the proposed emergency assistance is to provide support to Paraguay in the execution of humanitarian assistance actions in order to partially mitigate the emergency situation currently facing the affected area of ??the country, specifically in Ñeembucú and Presidente Hayes. Such actions could include attention to essential needs; supplies, medicines, transportation, and other materials that meet the immediate needs of the affected population. Provision is made for the acquisition of goods for: (i) drinking water, food and basic necessities; and (ii) provide support in the provision of relief and transportation of said elements to the affected areas (e.g., rental of transportation equipment and fuels) and any other goods necessary to meet the basic humanitarian needs of the population affected by the emergency.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
