Project Description

According to the IADB, the proposed TC has the general objective of supporting the execution of loan operation PR-L1182. In this regard, the specific objective of the TC is the development of plans and projects that contribute to competitiveness for the integration of Paraguay through the sustainable strengthening of the logistics sector and the facilitation of foreign trade. Specifically, it will seek to support the coordination, design, and digitalization of trade and investment processes based on improvements to the institutional framework and tools for attracting, promoting, and facilitating investment and exports, as well as processes related to improvements in coordinated border management.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
