Project Description

The objective of this IGR is to finance the procurement of commodities that will support the adaptation and maintenance of efforts to prevent, detect and treat malaria cases while preventing the spread of COVID-19, in order to provide personal protective equipment (PPE) and supplies to ensure the safety of institutional and community service providers and the affected population, and to implement actions necessary for malaria elimination at the national level. This proposal will complement national level interventions to raise awareness and action on the effects of COVID19/malaria, and will take action at the national and local levels, and support the goal of malaria elimination.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
