### **Project Description**

According to the IADB, the objective is to validate circular economy business models within the Colombia-Peru Border Integration Zone (ZIF) by demonstrating their sustainability, profitability, and scalability. The specific objectives are as follows: (1) to conduct studies that ensure the viability and provide operational guidance for the pilot projects; (2) to implement and assess circular economy pilot initiatives; and (3) to enhance binational governance and institutional capacities to secure long-term sustainability.

## **Investment Description**

• Inter-American Development Bank (IADB)

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
