Project Description

According to the IADB, the objective is to structure a trust and an accelerator program to boost the regenerative economy in Latin America. The main goal for this initiative is to work together with ventures that are already operating with a Minimum Viable Product and prepare them to attract and absorb investments of USD1M+ into viable scalable business models. To structure and operate this trust and accelerator IDB Lab and the IDB Natural Capital Lab will partner with Kaete Investimentos due to its track record in the entrepreneur ecosystem in the region, its experience specifically on green markets and sustainability.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
