<b>Status</b>	Approved
<b>Bank Risk Rating</b>	C
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 40.00 million

---

## Project Description

The program's objective is to contribute to the structuring and preparation of the Agua Negra Pass international tunnel construction project, the aims of which are to improve border integration between Argentina and Chile and expand the region's access to international markets through the Coquimbo¿San Juan¿Porto Alegre interoceanic corridor (paragraph 1.19). The program's specific objectives are to support the countries in conducting a successful bidding process for the contract to design and build the Agua Negra Pass international tunnel, and in completing the tunnel's engineering designs. These objectives will be achieved through the financing of technical studies, specialized technical assistance, and institutional strengthening of the Argentine Highway Administration (DNV), the Chilean Highway Administration (DVC), and the Agua Negra International Tunnel Agency (EBITAN) (paragraph 1.20).

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
