Status	Proposed
Bank Risk Rating	B
Borrower	Regional
Sectors	Industry and Trade
Investment Amount (USD)	$ 3.11 million
Project Cost (USD)	$ 3.11 million

Project Description

The objective of this program is to promote the growth and resilience of tech-based women-led/owned startups in STEM (Science, Technology, Engineering, and Math) fields in Latin America. The program will specifically target Central American countries and Ecuador, with the goal to improve women-led startups' access to disruptive technologies, training, networks and venture capital financing.

Investment Description

- Inter-American Development Bank (IADB)

The investment type was not available at the time of the snapshot.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
