| Investment Type(s) | Advisory Services |
| Investment Amount (USD) | \$ 2.85 million |
| Project Cost (USD) | \$ 2.85 million |

Project Description

According to the IADB, the General Development Objective of the proposed Facility is to increase access to infrastructure in LAC countries by fostering the preparation and execution of high-quality infrastructure projects in countries of common interest to the IDB and the OPEC Fund. The Specific Development Objectives are:

- (i) to generate a robust pipeline of investment and policy-based loan operations that can be subsequently cofinanced by both institutions, thereby supporting the expansion and consolidation of a joint loan portfolio; and
- (ii) to enhance the efficiency and quality of infrastructure project execution by strengthening institutional and technical capacities in beneficiary countries.

The facility will be financed by the OPEC Fund through OPEC Fund with US\$2,850,000. The Facility will provide financing through non-reimbursable Technical Cooperations (TCs). Resources will be channeled through individual projects. All individual projects must comply with the eligibility criteria described in this document and will be approved following the IDB policies and procedures.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
