| <b>Project Cost (USD)</b>      | \$ 1.00 million                        |

### **Project Description**

The objective of the project is to help incumbent financial intermediaries (such as banks, microfinance institutions, cooperatives) as well as non-conventional ones (i.e. e-commerce, gig-economy companies, etc.) to deliver improved digital financial services to their clients. To this end, the project will finance NovoPayment, an innovative fintech startup with a Banking as a Service model. NovoPayment's BaaS platform allows financial service providers to digitize their products in a very short time, helping to improve user experience and productivity in transaction processing. It also allows the end customers remote access to payments and financial products offered by regulated and non-regulated financial service providers, to cover rural areas and small towns, reducing the need for them to approach a physical branch.

## Investment Description

- Inter-American Development Bank (IADB)

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
