IADB-RG-Q0103

Talently: unleashing the potential of tech talent in the region

Project Description

The objective of the project is to support Talently, a Peruvian tech-talent marketplace and upskilling-to-placement platform that will train training tech talent and connect them to international companies. The company focuses on students from lower-tier schools, many of whom come from the countryside and do not have equal access to upskilling opportunities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
