IADB-RG-Q0160

UNBLOCK: Transforming Wasted Energy into Decentralized Computing
Power

Quick Facts

Countries	Argentina, Brazil
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2026-08-12
Borrower	Government of Argentina and Brazil
Sectors	Climate and Environment
Investment Type(s)	Equity
Investment Amount (USD)	\$ 1.00 million
Project Cost (USD)	\$ 1.00 million

Project Description

According to the IADB, the Project's objective is to reduce GHG emissions and improve energy efficiency at energy producing sites in Argentina and Brazil by harnessing gas that would otherwise be flared and curtailed renewable electricity to power high-performance, sustainable computing infrastructure.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
