## Project Description

From the IDB: "The objective of this consultancy is to analyze the overall feasibility of establishing a commercial supply chain for natural gas (NG) in the Caribbean region considering in particular the potential role or regional supplier such as Trinidad and Tobago (TT) and regional small economies as off takers. The study will include technical, economic, financial and commercial aspects, with particular focus on the resulting costs of investments and of the end cost of the delivered gas."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
