IADB-RG-T2659

Development of High Resolution Remote Sensing Data Sets and
Applications for Wat

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2016-01-14
Sectors	Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.00 million
Project Cost (USD)	\$ 1.00 million

Project Description

This project investigates Remote Sensing products that are designed for water-related operations. The Bank will examine how Remote Sensing products work, how they are produced, in which water-related situations they are most useful, and how these products can be validated and evaluated.

Investment Description

- Inter-American Development Bank (IADB)

no contact information available

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
