Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 1.50 million
Project Cost (USD)	\$ 1.88 million

Climate Risk: Identification, Management and Opportunities

IADB-RG-T2728

### **Project Description**

The objective of this operation is to assist decision makers in managing the challenges and seizing the opportunities resulting from climate change. This technical cooperation is aligned within the "Institutional Strategy 2010-2020" as it addresses climate change, an overarching issue that affects the three main development challenges in LAC. Specifically, it is framed with the "Integrated Strategy for Climate Change Adaptation and Mitigation, and Sustainable and Renewable Energy" (GN-2609-1) and the ¿Climate Change Sector Framework¿ (OP-2018) given its focus on climate risk and actions to manage and reduce its impacts. In addition, it contributes to the "Sustainable Infrastructure for Competitiveness and Inclusive Growth Strategy" (GN-2710-5) given that climate change needs to be overcome to ensure sustainable infrastructure.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
