Natural capital study for improved coastal resilience in the Caribbean

Early Warning System

Natural capital study for improved coastal resilience in the Caribbean

IADB-RG-T2750

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2016-05-20
Sectors	Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.30 million
Project Cost (USD)	$ 0.30 million

Project Description

From the IADB:

"The objective of this flagship study is to contribute state-of-the art knowledge sought by policymakers to inform municipal, regional and national environmental management policy, planning and investment for improved coastal resilience in the wider Caribbean Region. The study will shed light on the factors and environments that have enabled the integration of natural capital in coastal planning and development."

Investment Description

- Inter-American Development Bank (IADB)

The IADB will finance this USD 300,000 non-reimbursable technical cooperation, through the Biodiversity and Ecosystem Services Special Program.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
