The objective of this Technical Cooperation project is to improve the knowledge about the level of governability for Disaster Risk Management in Latin American and Caribbean countries through the Index of Governance and Public Policy in Disaster Risk Management (iGOPP).

Investment Description

- Inter-American Development Bank (IADB)

The IADB is financing up to US\$500,000 in non-reimbursable technical cooperation for this project.

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
