Project Description

The objective of this operation is to create a strategy to consolidate the NDC Invest platform as a mechanism adopted by countries in the Latin America and Caribbean region, but also to mainstream its functionalities inside the IDBG to ensure its successful implementation.

The IDB, via its Climate Change Division, will execute the proposed Technical Cooperation project and take supervisory, disbursement and procurement responsibility.

Investment Description

- Inter-American Development Bank (IADB)

The total cost of this project is US$625,000. US$500,000 will come from the Sustainable Energy and Climate Change IDB Special Program (SCI). The remaining US$125,000 corresponds to the in-kind contribution provided by technical staff of ministries from participating countries, and includes time by the counterpart staff and office space. The counterpart amount has been estimated as the sum of men-hours that participating professionals from ministries will put into the review and other recommended studies.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
