CANEF - Innovation and Competitiveness in Mining Value Chains

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2017-07-07
Borrower	Regional
Sectors	Mining, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.40 million
Grant Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.40 million

Project Description

The main objectives of this TC are to: (1) Characterize the mining global value chain; (2) Identify technological, knowledge, human capital and capabilities gaps that need to be addressed by the countries under study in order to promote local innovation and higher sector productivity, and the ensuing policy actions; (3) Analyze if and how the current macroeconomic downturn is impacting local technological and innovation capabilities accumulated during the commodity boom; and (4) Propose specific policy actions to protect local technological and innovation capabilities from the macroeconomic cycles that characterize commodity markets.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
