Project Description

IDB: REFORM / MODERNIZATION OF THE STATE-NATIONAL STATISTICS SYSTEMS AND CENSUSES
"The objective of this proposed technical cooperation is to improve the capacity of countries to produce timely and high quality data on the prevalence of under registration among children and the availability of an identity document among adults, particularly in vulnerable populations in Latin America. In particular, the TC will provide the opportunity to share experiences, develop and test alternative ways to collect information on birth registration, legal identity, disability status, and ethnicity and race using the 2020 round of population censuses."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
