Project Description

IDB: REFORM / MODERNIZATION OF THE STATE-NATIONAL STATISTICS SYSTEMS AND CENSUSES
"The proposed TC aims to close the gaps in administrative data relating to gender, environment and agriculture in order to provide more information for evidence-based policy making. The Bank will provide assistance to the countries of CARICOM to organize, share and exploit administrative data. By improving information and data management, the TC aims to improve government effectiveness by strengthening the evidence base for policy making."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
