<b>Investment Amount (USD)</b>	\$ 0.37 million
<b>Grant Amount (USD)</b>	\$ 0.37 million
<b>Project Cost (USD)</b>	\$ 0.37 million

---

## Project Description

The general objective of this Technical Cooperation (TC) is to strengthen mechanisms that promote gender inclusion issues in the energy sector. This TC will help identify opportunities and mechanisms to (i) increase gender mainstreaming in the design, implementation, construction, and operation and monitoring of energy projects, and (ii) promote greater female participation in the workforce in the sector in a scalable and replication way in Latin America and the Caribbean (LAC).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
