Open Data for Inclusion and Transparency in LAC

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2017-07-21
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.42 million
Project Cost (USD)	\$ 0.42 million

Project Description

IDB: The objective of this Technical Cooperation is to support the governments of the region in the implementation of concrete actions within their open data initiatives to increase transparency, citizen participation and accountability in a sustainable way. The specific objectives are: (i) to support governments in the process of open data focused on quality throughout the public administration; (ii) encourage the use of open data by users, generating a greater link between supply and demand; and (iii) strengthen the regional open data ecosystem.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
