Project Description

IDB: Objetive: To create a knowledge hub on transformative initiatives of health systems implemented in Latin America and the Caribbean (LAC) and other regions, such as Spain, the United Kingdom, and others. Given the magnitude and complexity of the challenges facing health systems, it is essential that the countries of Latin America and the Caribbean (LAC) have access to a platform that provides knowledge and technical support to the design and implementation of systemic reforms, and that facilitates the dialogue among countries for learning exchanges. The target participants for the knowledge hub are Ministries of Health, Ministries of Finance, Health Insurance Institutions, Health Services Management Institutions, academic teams, and researchers.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
