Project Description

IDB: FINANCIAL MARKETS-CAPITAL MARKET DEVELOPMENT

The main objective of this technical cooperation (TC) is to support public institutions in the design role of digitization policies, in particular to boost digital sales of SMEs, by diagnosing barriers to SMEs and identifying the development of digitization opportunities for sales, payments, and distribution, tailored to the specific needs in each country.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
