## Project Description

According to the bank, the objectives of this TC are: i) identify gaps investments / modifications in infrastructure, equipment, IT Security, software and procedures necessary to improve the connectivity and transmission of quality and reliable data by of border control agencies, and border surveillance technologies at the national and regional level in Central America; ii) design a safe border management infrastructure to enhance security of critical information and enhance the control environment at the border crossings; iii) develop a short- and medium-term detailed action plan to identify priorities, responsibilities and cost of interventions to improve the connectivity of border control agencies.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
