IADB-RG-T3070

Simplifying Lives Through Digital Identity

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Regional
Sectors	Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.40 million
Grant Amount (USD)	\$ 0.40 million
Project Cost (USD)	\$ 0.40 million

Project Description

The main objective of this technical cooperation is to support digital identity and/or government registration agencies to develop an integrated strategy based on digital identity. The activities of this TC will focus on estimating the economic value that a digital identity system can provide in any country, on the implementation of a multisectoral strategy that helps countries to implement integrated initiatives, and on enhancing and promoting the importance of Digital identity systems among decision makers in each country.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
