Project Description

IDB: ENVIRONMENT AND NATURAL DISASTERS-ENVIRONMENTAL MANAGEMENT AND GOVERNANCE
"The objective of this operation is to support the results-based approach in forestry strategies in LAC to enhance the impact of REDD+ policies, with a specific focus on promoting environmental sustainability in the extractive industries sector (oil, gas and mining industry). the technical cooperation will seek to identify sustainable extractive practices in synergy with existing initiatives which are tackling deforestation issues. The main goals will be: (i) a region-wide assessment of extractive industry practices and related governance frameworks for REDD+; (ii) the design of pilot activities to promote the adoption of sustainable practices in the extractive industries sector of Colombia, Peru and Guyana given ongoing efforts to consolidate forestry strategies (REDD+) (iii) regional knowledge dissemination so as to engage the private sector."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
