Agricultural Policy, Fisheries and Climate Change Analysis in LAC

IADB-RG-T3073

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Sectors	Agriculture and Forestry
Investment Amount (USD)	$ 0.35 million

Project Description

According to the IDB website, this Technical Support will generate policy recommendations for a more efficient allocation of fiscal resources in agricultural and fisheries sectors in selected Latin America and the Caribbean countries. Specifically, it will focus on analyzing the current structure and levels of policy support to these sectors to identify forms of support that are the most efficient and consistent with economic, social and environmental goals.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

Project contact information not available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
