Status	Proposed
Bank Risk Rating	U
Borrower	Regional
Sectors	Infrastructure, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.65 million
Grant Amount (USD)	$ 0.65 million
Project Cost (USD)	$ 0.65 million

Early Warning System

Methodology for evaluation, identification and implementation of Smart Cities projects in LAC.

IADB-RG-T3083

Project Description

Design, apply a methodology based on indicators for diagnosis, evaluation of cities status in the region, regarding Smart Cities that allows: (i) to know the progress status of cities in the region through quantitative and qualitative values; (ii) to identify in greater depth the main challenges and opportunities; and (iii) to develop implementation plans of Smart Cities components in the region through lending operations.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
