Project Description

From the IDB: "The regional project "Knowledge Generation and strengthening of institutional capacities for the development of infrastructure and digital economy in Latin America and the Caribbean," is to promote, facilitate and contribute to harmonization in the design and implementation of regulatory and policy measures in essential aspects for the development of infrastructure and digital economy in LAC. Offering solutions to problems and common challenges of the countries within the framework of their participation in the digital economy. This will lead to the fulfillment of the following specific objectives: (i) Promote and facilitate access to technical knowledge adjusted to the needs of the public sector in the region in particular issues related to the development of infrastructure and digital economy; (ii) that the beneficiary countries as a whole become more relevant in the coordination mechanisms at the international level; and (iii) set up as a space for high-level regional discussion, exchange of experiences and dissemination of technical knowledge, a space that, under this initiative, is called the Network of Infrastructure Specialists and Digital Economy of LAC (from now on the Specialists Network)."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
