<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	C
<b>Borrower</b>	Regional
<b>Sectors</b>	Technical Cooperation
<b>Investment Amount (USD)</b>	\$ 0.25 million

## Project Description

In order to guarantee the sustainability of the DIME (Direct Internet Message Encapsulation) platform, this new phase of the project will institutionalize DIME, by selecting an operator with technical know how and regional legitimacy, which will receive technical assistance to transfer developed methods and processes. This phase also seeks development and promotion of country level use of a comprehensive methodology to evaluate high financial impact medications.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
