## **Project Description**

According to the bank, the general objective of this TC is to help Caribbean countries reduce their dependency on fossil fuels by accelerating the diversification of the countries' energy matrices with RE, EE and cleaner fuels. The TC will have the following specific objectives: (i) support the necessary regulatory framework adaptation for SE and adoption of innovative technologies; (ii) accelerate the deployment of SE innovative technology approaches by expanding Sustainable Energy Plans (SEP) for each country; and (iii) create mechanisms for the exchange and dissemination of data, information and knowledge.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
