Supporting Development of Information Sharing & Analysis (ISAC) for Broadband Infrastructure Protect

Supporting Development of Information Sharing & Analysis (ISAC) for Broadband Infrastructure Protect

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Sectors	Communications, Infrastructure, Technical Cooperation
Investment Type(s)	Grant

Project Description

From the IDB: "The general objective of this project is to support the region for the development of Supporting Development of Information Sharing & Analysis (ISAC). To this end, a roadmap would be developed to propose a strategy for ISAC implementation based on the results of diagnosis of the broadband infrastructure. Furthermore, detailed action plans including pilot system for El Salvador would be proposed as a first step."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
