Digital Economy Investments for Social Development

IADB-RG-T3129

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.19 million

Project Description

From the IDB: "The expansion of the digital economy in Latin America and the Caribbean is emergent. While there are some public policies aimed at promoting the adoption of new technologies, there has not been a dynamic and sustainable process to foster the transformation of government, industries and talent, among other areas, which would equip countries to cease the opportunities and address the challenges. The advent of new technologies presents a unique opportunity to reduce the costs and improve the quality of social service delivery. This regional TC will fund the required developments to leverage the Bank's work with governments in the region to promote the emergence of digital solutions, public policy and regulation in the social sectors."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
