Project Description

The objective of this Technical Cooperation (TC) is to strengthen the capacity of the policy-makers in Latin American and Caribbean (LAC) countries for the design and implementation of public policies based on empirical evidence, producing public management indicators applied to the countries in the region, promoting the strengthening of the public institutions, and comparing its performance and with the OECD countries. These indicators will be published in digital format and in paper in the third edition of the IDB-OECD joint publication Government at a Glance in Latin America and the Caribbean. The publication will provide internationally comparable data on public management activities for the LAC region, helping policy makers and citizens in the region. In addition to the topics covered in the second edition, the third edition will include Fiscal Transparency and Integrity topics.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
