## Project Description

The purpose of this operation is to support the inclusion of aspects of Climate Change in the structuring of sustainable infrastructure projects developed by IDB Invest, including those developed under the Public-Private Partnerships (PPP) scheme. An additional objective is to generate knowledge and organize dissemination activities to promote adaptation and mitigation considerations to Climate Change in PPP projects.

## Investment Description

- Inter-American Development Bank (IADB)

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
