Project Description

The bank states the objective of the project as providing support to an independent governance board and Los Andes University to institutionalize a Sustainable Development Goals (SDG) Center of Excellence for Latin America and the Caribbean (LAC). Establishing the Center entails: conducting an executive search for a Center director, setting a long-term financial strategy (including fund-raising activities), developing a research agenda around selected SDGs, and building a regional community of practice. Once established, the Center will serve to promote SDG research and policy for LAC and to train the next generation of leaders in sustainable development from the region by offering high-quality courses and executive training programs.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
