Project Description

According to the bank, the project aims to contribute to the sustainability of the Water and Sanitation services provided by the Community Organizations of Water and Sanitation Services (OCSAS) through the strengthening of their associative processes at the regional level through the consolidation of the Latin American Confederations of Community Organizations of Services of Water and Sanitation Water and Sanitation (CLOCSAS), strengthening its organizational and strategic structure, and improving its positioning in front of regional political actors. Additionally, at the national level through the study and strengthening of associativity at a national level. A component to strengthen the existing associations in Ecuador will be developed with the development of Integral Attention Centers (CAI), social enterprises that offer services to associated OCSAS to contribute to improving the level of management of the same, including accompaniment, training and technical assistance, among other services based on demand.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
