<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 0.30 million
<b>Project Cost (USD)</b>	\$ 0.30 million

### Project Description

The objective of this TC is to contribute to the research on the future of jobs in two aspects: adding new data for Latin America and the Caribbean and developing policy tools to confront the challenges that the new trends pose for workers and firms in the region. One of the main aspects will be studying the skills that will be needed for tomorrow's jobs and tasks. The TC will also analyze how technological change is affecting the labor market, with a focus on understanding the impacts that automation will have in the labor market in our region. In addition, this TC aims to use digital innovation to offer countries innovative tools that contribute to a better and more informed policy dialogue on this matter.

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
