## Project Description

The aim of the project, according to the bank is to contribute to increase the growth of the economies of the region through the improvement of the competitiveness of the construction sector as a result of the adoption of BIM. The specific objectives are: (i) to elaborate action plans to promote the adoption of BIM at the country or sub-national level; (ii) build capacities in public and private actors for the use of BIM through the training of talent, the development of bidding pilots of work with BIM requirements, leveraging the State's purchasing capacity and the Bank's financing, and the elaboration of standards and standards that facilitate its application; and (iii) sensitize and articulate the actors of the public, private and academic sector on the opportunities offered by the BIM and other new technologies.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
